PROJECTS

ChatConnect Application

- The MERN stack ChatConnect App is a real-time messaging application built using the MERN(MongoDB, Express, React, Node.js) stack,it provides users with an intuitive and interactive platform to communicate with each other in real time. It offers a clean and user-friendly interface that enhances the overall user experience. Whether it's a private conversation or a group discussion, the MERN stack ChatConnect App facilitates effortless communication across multiple devices.

InboxMax Application

- The InboxMax Application is a full-stack (MongoDB, Express, React, Node.js) web application designed to streamline the process of sending mass emails to a large number of recipients. It provides an efficient and convenient way for businesses and organizations to communicate with their customers, clients, or members in a personalized and targeted manner.

SecurePass Application

- SecurePass is a robust and user-friendly authorization system built using the MERN (MongoDB, Express.js, React.js, Node.js) stack. It provides a comprehensive solution for managing user authentication and access control in your web applications. With SecurePass, you can ensure the security and privacy of your users' data while delivering a seamless and efficient user experience.

EXPERIENCE

Assitant Manager

ICICI Bank

📅 08/2014 - 05/2021   📍 Namakkal

- Throughout my tenure, I have thrived in a collaborative environment, seamlessly adapting to team dynamics while also taking the lead on numerous critical situations.
- I was entrusted with a significant level of responsibility, including the management of keys to the vault. With utmost diligence and attention to detail, I ensured the safekeeping and proper usage of these critical assets.
- This experience has ingrained in me a strong sense of accountability and the ability to handle sensitive information with the utmost professionalism and integrity.

EDUCATION

Computer Science and Engineering

Saranathan College of Engineering

📅 09/2009 - 04/2013

SUMMARY

With a solid foundation in customer-centricity and a keen eye for detail, I possess a unique blend of technical acumen and a deep understanding of user needs. I am excited to harness this combination to create intuitive, user-friendly IT solutions that enhance efficiency, streamline operations, and drive meaningful business outcomes.

As I transition to the IT industry, I bring with me a relentless dedication to learning and leveraging cutting-edge technologies. Eager to apply my expertise in a new domain, I am committed to delivering innovative solutions and contributing to the growth and success of my future team and organization.
